Dear Dr Nasr Eldin,

**WHO Prequalification Unit – Inspection Services  
Closing of Inspection: Egyptian International Pharmaceutical Industries Company (EIPICO)**

I refer to the inspection that was performed by the World Health Organization (WHO) Prequalification Unit (PQT) Inspection Services Team (INS) and specifically Dr D. Catsoulacos and Dr M. Kladi the details of which are outlined below:

Name: Egyptian International Pharmaceutical Industries Company (EIPICO).  
Address: Industrial Area B1 PO Box 149, 10th of Ramadan city, Egypt  
Date: 16 -19 January 2023

Thank you for your email correspondence dated 16 April, 8 May, 19 July and 13 September 2023, and the corrective actions to the deficiencies listed in the inspection report. The actions taken, or proposed to be taken, to correct the deficiencies have been reviewed by INS.

In general, they are acceptable. Therefore, considering these responses, as well as the findings of the inspection, INS has recommended that the site can be considered to be compliant with the standards of Good Manufacturing Practices (GMP) published by WHO for the scope activities listed below:

- Manufacture, packaging, and quality control of small- volume aseptically- processed sterile products.

The inspection findings and your response allow INS to recommend to the Prequalification Assessment Team that the site inspected may continue to be named *as* a manufacturing site in the dossier for the following product(s):
